

# The Bromfords School and Sixth Form College

*To Learn and To Care*

# Headteacher's Welcome

Our students are at the heart of everything we do here at The Bromfords School and Sixth Form College. We want them to experience great lessons from inspirational teachers and be afforded outstanding opportunities to develop not only academically but also socially, both in and outside the classroom. Whilst our primary goal is that students learn core knowledge from a breadth of subjects to enable them to progress to the next phase of their lives, it is also vital that they learn how to think logically, inclusively and morally too. It is our belief that students should be versed in "the best which has been thought and said", whilst being able to recognise how this relates to the modern, ever-changing world in which we live.

We want to ensure that every child has access to an education that is inspiring and stimulating, whilst encompassing challenge and fostering a lifelong love of learning. Our curriculum therefore, is truly student-centred.

Our vision is to empower our students to have the skills and knowledge to fully take control of their own futures. We want them to experience the wealth of opportunity that the global community that they are an intrinsic part of, has to offer them.

**Best wishes,  
Neil Dunn - Headteacher**

## To Learn and To Care

# A community where every child matters...

The core purpose of our school is to enable every young person to achieve their full potential, in every aspect of their lives. For us, it is important that our students feel happy, safe and able to express themselves, which is why we pride ourselves on ensuring that there is a smooth and positive transition from primary into secondary school life.

The Bromfords School and Sixth Form College is a close knit community where we are proud of the care and support we provide for all our students who are treated as individuals. We believe it is crucial that students are active participants in their own learning and that they take shared responsibility for their own progress to develop into well rounded, resilient and thoughtful young adults.

“Pupils are prepared well for making choices about their next steps”

Ofsted May 2016

# At Bromfords, the individual is at the heart of all we do...

The school's highest priority is to secure the academic achievement of our students. We expect them to study hard to ensure that they make exceptional progress. We use every opportunity to encourage the traditional values of respect, courtesy, honesty, resilience and team work in order to support our students in becoming successful young adults who are prepared for a life in modern Britain.

# A commitment to enriching lives and securing success...

At The Bromfords School and Sixth Form College, our curriculum has been designed to enrich our students, preparing them for a bright future and supporting them to achieve their full potential. From the very beginning of Year 7, students have the opportunity to develop a variety of skills and knowledge through a wide range of academic and practical subjects.

In Year 9, students begin to sample their GCSE courses, after selecting their subjects from a wide range during Year 8. They continue to study a wide range of subjects alongside this, including PE and Values, Ethics and Beliefs, which ensures that our students receive a broad and balanced curriculum.

We are proud to nurture the talents and interests of our students and aim to give them an abundance of invaluable life experiences.

We offer a wide variety of enrichment opportunities for students including: academia, sport, drama and leadership. We are committed to working with students and their families to ensure that a balance is found between their studies and developing excellence in their particular field. Bromfords provides a wide range of opportunities to try new activities and foster skills and talents through a range of clubs, including all three levels of the Duke of Edinburgh Award, and numerous cultural trips and visits. We offer encouragement for every student to unlock their hidden skills, develop their interests and become dedicated and confident young people.

...“Staff have high expectations of pupils’ application to tasks and, in return, pupils work with positive attitudes.”
